GRAND RIVER DAMAGES CROPS

Hackleman and Talbert Will Advise Farmers at Chillicothe.

Dean F. B. Mumford received a telegram this morning from Chillicothe saying that the Grand and other rivers near there had damaged the crops by overflow, and also asked that a man be sent from the College of Agriculture to advise the farmers. J. C. Hackleman, T. J. Talbert of the farm crops department will go there immediately to advise as to what crops to plant and how to plant them.

In the Grand River bottoms is some of the richest farming land in the state, and as the overflow has come early there is still time for replanting, according to the farm crops department. Dean Mumford issued a statement this morning saying that some early varieties of corn might be planted as late as July 1, and that sorghum, millet and cowpeas might be planted up until July 15.

DRUMMERS HERE IN 1918

Missouri Association Chooses Columbia as Next Meeting Place.

Columbia has been chosen as the 1918 meeting place for the Missouri Drummers' Association. This organization is devoted to the interest of the traveling salesmen of Missouri. Account of the heavy rains, only 145 were registered at the last meeting in Booneville. However, plans are being made for at least 200 next year.

This Cow Makes Good Record.

Milton H. Fohrman as official tester for the Missouri Holstein Breeders' Association, made a seven-day butterfat test of two three-year-old pure bred Holstein cows this week on the G. C. Davis Dairy Farm. Both cows qualified for the Advanced Record Official, Campus Chief Bis with 11.87 pounds of butter and Campus Carlotta Katrina with 12.96. The University dairy department bred and raised the cows. Mr. Davis bought them last winter.
